

Article Overview

The Legrand CF150/300EZ 6" x 12" x 10 ft wire mesh cable tray typically ranges from \$120 to \$180 per 10-foot section, depending on finish and supplier.

Product Overview

The CF150/300EZ cable tray is a wire mesh tray constructed from high-quality welded steel, designed for medium-capacity cable management. It measures 6 inches in height, 12 inches in width, and 10 feet in length, with a Safe-T-Edge to prevent cable fraying and protect installers from sharp edges . The tray supports up to 155 lbs and is suitable for indoor applications with finishes including Electro-Zinc, Hot-Dipped Galvanized, Stainless Steel 316L, and powder-coated colors .

Price Considerations

- o Material and Finish: Electro-Zinc (EZ) is generally the most cost-effective, while stainless steel or custom powder-coated finishes increase the price .
- o Supplier Variations: Prices vary by distributor. For example, Zoro and Alibaba list similar 150mm cable trays with prices in the \$120-\$180 range per 10-foot section, depending on quantity and shipping .
- o Bulk Orders: Ordering multiple sections may reduce the per-unit cost. Some suppliers offer free shipping for orders over a certain amount .

Purchasing Tips

- o Confirm the exact finish and load capacity required for your installation.
- o Compare multiple suppliers to find the best price and shipping options.
- o Check for UL or CSA certifications if required for your project.
- o Consider accessories like brackets, supports, and connectors, which may be sold separately. By considering these factors, you can budget accurately for the CF150/300EZ cable tray and ensure compatibility with your installation needs .
