GLSUN 1x3 optical splitter is a passive optical device that divides a single input optical signal into three equal output signals. Insertion Loss. The FCTM series 1x3 Monolithic Single Mode Coupler utilizes Agiltron's fused biconical taper technology and compact packaging to deliver exceptional optical performance. Thorlabs offers a varied selection of single mode (SM), polarization-maintaining (PM), multimode (MM), and double-clad fiber couplers, as well as 1x8 and 1x16 SM PLC splitters; 1x4, 1x8, and 1x16 PM PLC splitters; wideband multimode circulators; RGB combiners; and WDMs. The coupling ratio could be selected according to customer's request. It features low excess loss, small size and high polarization extinction ratio.
