

300150 Cable Tray Price

Article Overview

The price of a 300x150 mm galvanized cable tray ranges from approximately INR90 to INR150 per meter, depending on the supplier, material, and order quantity.

Supplier Options and Pricing

- o IndiaMART Suppliers: Competitive prices for metal cable trays start at INR90-INR100 per meter for standard galvanized trays, with bulk order options and fast delivery available . Notable suppliers include Global Manufacturers And Traders (INR90/m) and Super Cable Tray Private Limited (INR95/m) for similar sizes .
- o Technical Supply Listings: A 2-meter galvanized cable tray of 50 mm width (similar in material and type to 300x150 mm trays) is listed with tax included, indicating that pricing may vary based on length and width .
- o Manufacturer Direct (Holdee Electric): Offers customized cable trays including ladder, ventilated, perforated, and wire mesh types in GI, SPHC, aluminum, and stainless steel. Prices are provided upon inquiry, and OEM samples are free. This is suitable for large-scale or specialized projects .
- o PDF Price Lists (Manibhadra): Standard hot-dip galvanized cable trays with side channels and rungs are priced per meter, with rates varying by height and width. For example, 75/100 mm height trays are INR67 per piece for coupler plates, with main tray rates available on request .

Factors Affecting Price

- o Material: Galvanized steel is cheaper than stainless steel (SS304/SS316) or aluminum alloy.
- o Length and Width: Standard lengths are 2-2.5 meters; wider trays like 300 mm may cost more than 150 mm trays.
- o Bulk Orders: Minimum order quantities (e.g., 50 meters) can reduce per-meter cost.
- o Delivery and GST: Prices are often ex-works or ex-Mumbai, with GST and shipping extra .
- o Customization: Ladder, perforated, or ventilated trays may have higher costs due to fabrication complexity .

Recommendation

For a 300x150 mm galvanized cable tray, contacting suppliers directly is recommended to get updated quotations, confirm material specifications, and negotiate bulk discounts. IndiaMART and manufacturer websites like Holdee Electric provide direct inquiry options for the most accurate and current pricing .
