

Article Overview

Key manufacturers and suppliers of complete electrical distribution boxes in Belgium include Schneider Electric Belgium, ATS Brussels, and Electric S.A.

Schneider Electric Belgium

Schneider Electric offers a complete range of enclosures and accessories suitable for electrical distribution systems. Their PanelSeT line (formerly Spacial and Thalassa) includes metal, plastic, and polyester enclosures for both indoor and outdoor applications. Options include floor-standing cabinets, wall-mounted steel enclosures, and lightweight plastic variants, with customization services and online configuration tools to tailor enclosures to specific project requirements .

ATS Brussels

ATS Brussels specializes in the production of serial electrical switch boxes and panels. They provide technical support, distribution of electrical equipment, and a 24-hour emergency service, making them a reliable partner for industrial and commercial electrical distribution projects .

Electric S.A.

Electric S.A. supplies a comprehensive selection of electrical installation materials, including distribution boards, wall and cavity boxes, switches, sockets, circuit breakers, and junction boxes. Their products are designed for residential, commercial, and industrial applications, ensuring compliance with current safety standards and fast delivery across Belgium .

Additional Considerations

Other Belgian companies involved in electrical distribution include Delpower, which offers high and low voltage installations, UPS systems, and emergency power solutions, and Pauwels Transformers, which provides complete turnkey systems including distribution transformers for industrial applications . These companies may be suitable for projects requiring customized or large-scale electrical distribution solutions. These manufacturers provide a range of options from standard enclosures to fully customized distribution panels, supporting both small-scale installations and complex industrial setups.
