

CIF Price for 100kW Battery Cabinets Exported from Morocco

Article Overview

The CIF price for a 100kW battery cabinet exported from Morocco typically ranges from \$40,000 to \$60,000, depending on specifications, shipping, insurance, and destination tariffs.

Base Price of 100kW Battery Cabinets

Industrial-grade 100kW/215kWh LiFePO4 battery cabinets in Morocco are priced in the range of \$40,000 to \$60,000 per unit, depending on the manufacturer, quality, and customization options . These systems are designed for commercial and utility-scale solar energy storage and can be scaled up to 1MWh with additional modules .

CIF Components

The CIF price includes:

- o Cost of the battery cabinet (purchase price)
- o Freight to the destination port
- o Insurance covering transport risks Shipping and insurance costs vary by destination, but for large battery cabinets, freight can add \$2,000-\$5,000 per unit depending on the port and shipping method.

Customs Duties and Taxes

Morocco applies tariffs based on the HS code of the product and the destination country . Key points:

- o Preferential trade agreements (e.g., EU-Morocco Association Agreement, US-Morocco FTA, Agadir Agreement) can reduce or eliminate customs duties if a valid certificate of origin is provided .
- o Standard import duties for industrial equipment range from 2.5% to 17.5%, depending on classification .
- o Additional charges may include TPI (0.25%) and VAT on the CIF value plus duties .

Example CIF Calculation

Assuming a 100kW battery cabinet priced at \$50,000, shipped to an EU port with preferential treatment:

- o Battery cost: \$50,000
- o Freight & insurance: \$3,000
- o CIF value: \$53,000
- o Customs duty (0% under EU agreement): \$0

CIF Price for 100kW Battery Cabinets Exported from Morocco

- o TPI (0.25%): \$132.50
- o VAT (20% typical EU rate): \$10,626.50
- o Total CIF cost: ~\$63,759 For destinations without preferential agreements, customs duties could increase the CIF price by 2.5-17.5%, depending on the HS code and local regulations .

Summary

The CIF price for a 100kW battery cabinet exported from Morocco generally falls between \$60,000 and \$70,000 for most international destinations, factoring in shipping, insurance, and applicable duties. Prices can be lower for countries with preferential trade agreements and higher for destinations with standard tariffs. Exporters should verify the HS code classification and confirm duty rates with Moroccan customs to ensure accurate CIF pricing .
