

Article Overview

Inno Instrument and OZ Optics are key Canadian sources for fiber optic splicing equipment and related components.

Inno Instrument via Hexatronic Canada

Inno Instrument, founded in 2007, is a global leader in fiber optic splicing and test equipment. In Canada, Hexatronic Canada serves as the authorized distributor for Inno Instrument products, including FiberFox fusion splicers and cleavers. These splicers are designed based on installer and operator feedback, offering high precision, reliability, and advanced features for telecommunication infrastructure projects. Inno Instrument has rapidly gained popularity among Canadian network operators and installation companies due to its high-end, durable splicing machines and accessories (Hexatronic Canada) .

OZ Optics Limited

OZ Optics, established in 1985 and headquartered in Ottawa, is a Canadian manufacturer and supplier of fiber optic products. The company designs and produces fiber optic components, test equipment, and sensor systems for a wide range of applications, including telecommunications, industrial monitoring, and security systems. While OZ Optics primarily focuses on components and test equipment, its offerings support fiber optic splicing and network deployment across Canada and internationally .

Additional Canadian Resources

While not manufacturers, several Canadian companies provide fiber optic splicing services and distribution:

- o Comtest Communications distributes international splicer brands like Sumitomo Electric Lightwave and offers advanced fusion splicing solutions across Canada .
- o ACME Technical Services provides professional fiber optic splicing services, including fusion splicing, OTDR testing, and network installation support throughout Canada .

Summary

For Canadian-based fiber optic splicer manufacturing, Inno Instrument (via Hexatronic Canada) and OZ Optics are the primary sources. Inno Instrument focuses on high-end fusion splicers and accessories, while OZ Optics provides a broader range of fiber optic components and test equipment. For service and distribution, companies like Comtest Communications and ACME Technical Services complement the manufacturing landscape by offering splicing solutions and technical support .

Canadian Fiber Optic Cable Splicer Manufacturer

With 20 fully equipped splicing vehicles and a team of seasoned technicians, we deliver expert service across Manitoba and

Outage / Interruption des services Job Bank's website will be unavailable due to system maintenance from 12:00 a.m. to 7:00 a.m.,

In the rapidly evolving telecommunications landscape, Canada stands out with its top-notch fiber optic cable

All our technicians are certified by the Fiber Optic Association (FOA), ensuring every project meets international standards for quality

Discover top-quality fusion splicers for seamless fiber optic connections. Enhance efficiency and precision

Pearlyond Technologies Canada is a leading fiber optic supplier specialize in manufacturing and sales of fiber optic patch cords and

Fiber Optic Splicing from ACME Technical Services: expert homepage across Canada, including planning,

From simple end-to-end cabling and splicing project to full multi-network solutions and emergency restoration services, we offer the

This process creates a continuous optical path for the transmission of light, crucial for maintaining signal integrity in fiber optic

Summary Fibre Optic Cable Splicer in Canada Find key facts and figures about working as a fibre optic cable splicer. The following

Fiber Optic Splicing What makes fiber optic splicing important? According to Research and Markets" "Fiber Optics Market by Cable -

Manufacturer of optical fiber cables and network connectivity equipment. Ribbon fiber systems, air-blown fiber

Complete fiber optic tool kits for cable installation and splicing. Includes strippers, cleavers, cleaners, and other essential tools. Ships

Gcabling, as a leading fibre cable manufacturer with 15+ years of experience, has collected

Canadian Fiber Optic Cable Splicer Manufacturer

Your partner in engineering procurement and fiber construction We have grown our company building fiber

Search Splicing fiber jobs in Canada with company ratings & salaries. 48 open jobs for Splicing fiber in Canada.
