

Custom-made lighting distribution boxes in Tunisia

Article Overview

Custom-made lighting distribution boxes in Tunisia are available from local suppliers, with prices varying based on specifications, materials, and customization requirements.

Suppliers and Options

- o ELECSA Tunisia - A leading provider of electrical and power equipment, including industrial lighting solutions and distribution systems. They offer high-quality, reliable products suitable for residential, commercial, and industrial projects. Pricing for custom-made distribution boxes depends on the size, number of circuits, and additional features, so direct consultation is recommended to get a quote .
- o Golda Electric - Offers a wide range of electrical equipment, including circuit breakers, meters, and trunking systems. They can provide tailored solutions for lighting distribution, and prices are competitive, but specific costs require contacting the company with your project specifications .
- o Gape Led - Specializes in LED lighting and industrial lighting systems. While primarily focused on luminaires, they also provide electrical distribution solutions and can customize boxes for specific lighting setups. Pricing varies with power capacity, number of outputs, and enclosure type .
- o Polylighting Tunisia - Provides residential and decorative LED lighting solutions and can assist with custom distribution boxes for integrated lighting systems. Prices are influenced by the complexity of the installation and the materials used .

Price Considerations

- o Material: Metal enclosures (steel or aluminum) are more expensive than plastic boxes.
 - o Size and Capacity: Larger boxes with more circuits or higher amperage ratings cost more.
 - o Customization: Additional features like modular compartments, surge protection, or integrated LED indicators increase the price.
 - o Installation and Delivery: Some suppliers include installation in the quote, while others charge separately.
- Estimated Price Range: For small to medium custom-made lighting distribution boxes, prices in Tunisia typically start around 200-500 TND for basic models and can exceed 1,000 TND for larger, fully customized industrial-grade boxes. Exact pricing requires a detailed quote from the supplier based on your project requirements.

Recommendation

To obtain the most accurate pricing:

- o Contact ELECSA Tunisia or Golda Electric with your specifications (dimensions, number of circuits, type of enclosure).

Custom-made lighting distribution boxes in Tunisia

- o Request a custom quote including delivery and installation if needed.
- o Compare options from multiple suppliers to ensure competitive pricing and quality. By consulting these suppliers, you can secure a custom-made lighting distribution box that meets your technical and budgetary requirements in Tunisia .
