

Default IP address of EMC fiber optic switch

Preview

Dell EMC recommends configuring the switch module through the Dell EMC OpenManage Enterprise -- Modular (OME-M) graphical user interface (GUI). By default, the IP address mode is set to DHCP. Use the GUI to assign a. Page 1 Connectrix DS-24M2 Fibre Channel Switch USER GUIDE P/N 069001203 REV A02 EMC Corporation Corporate Headquarters: Hopkinton, MA 01748-9103 (800) 424-EMC2 Page 2 Copyright (C) 2002, 2003 EMC Corporation. It includes examples for ethernet connections to Dell EMC Networking, Cisco Nexus, and Fibre Channel networks. It provides 16 ports of 16/32G Fibre Channel connectivity, enabling you to connect your servers and storage devices to a high-speed, low-latency network. Connect the other end of the Port 0 cable as follows: o For a direct attach configuration -- to the host server's host bus adapter (HBA).

Two fiber optic cables are required between each pair of fiber switch modules. Use a high quality duplex fiber optic cable containing 62.5/125 or 50/125 multimode fiber or g/125 for single mode fiber.

The EMC®; Connectrix®; DS-300B provides a cost-effective, flexible foundation for entry-level SANs and can serve as an edge switch for core-to

The fiber switch has six RJ-45 ports (P1-P6) for Ethernet connections and two pair of fiber optic connection ports (P7-P8). Each fiber switch must be programmed with a unique IP address.

Here you can set IP address details, hostname, snmp, clocks, timezone, ntp and other switch settings. In this example I have configured only basic settings - preferring to use templates for my

initial configuration The default IP address on Brocade workgroup switches is 10.77.77.77. The subnet mask is 255.255.255.0. If you set your workstation to something in this range you can run the EZ

This Quick Start Guide is designed to guide you through the installation and show you how to access the Configuration Interface. This Quick Start Guide also includes the warranty terms, and is for use with

Step 2: Go to your web browser and go to: 192.168.1.1 Fibersystem's fiber optical switches has below settings as default: Username: Password: IP-address: Netmask: Default gateway: admin changeit

NOTE: You may also access the WebTools configuration UI to manage the switch module by typing the switch module IP address into any supported web browser. Figure 5.

Default IP address of EMC fiber optic switch

Abstract This document illustrates how to configure Dell EMC Networking S4148-ON and S4128-ON switches for use with Dell EMC SC Series storage using Dell EMC best practices.

Installation Requirements Phillips screwdriver (for rack- or wall-mounting) Standard-sized, 19" wide rack with a minimum of 1U height available (for rack-mounting)

To set up the switch, assign an IP address and other configuration information necessary for the switch to communicate with the local routers and the Internet. The minimal configuration provided here does
