

Hgn optical module

Preview

The 10G 10KM SFP+/OSX010000 HGN Optical Transceiver is a high-performance, hot-pluggable module designed for 10 Gigabit Ethernet (10GbE) and SDH/SONET STM-64 transmission over single-mode fiber (SMF). With a reach of up to 10 kilometers and a wavelength of 1310 nm, this transceiver is ideal for. You can use different levels of 1.25 Gbit/s SFP/eSFP optical modules with GE interfaces and 10 GE interfaces. Figure 1-97. Experience exceptional network performance with the Huawei compatible 10G 1310nm 10G 10KM SFP+/FTLX1471D3BCL-HU SFP+ optical transceiver. It is a core subsidiary of Huagong Technology Industry Co. The company currently has 7 major product lines: data center product line, wireless/transmission product line, access product line, silicon. I love how easy these optical modules are to deploy. No complex configuration required. com sent us test report, no alarm, it is original SFP+ for my S5570 switch. As a global leading professional Huawei network hardware and solution provider, we have delivered Huawei, ZTE, Nokia.

You can use different levels of 1.25 Gbit/s SFP/eSFP optical modules with GE interfaces and 10 GE interfaces. The wavelength of common 1.25 Gbit/s SFP/eSFP optical modules can be 850

Buy Huawei OSX010000 HGN Original 10G 1310nm 10km SFP+ Module with Compatible Test Report Assured, without alarm 3-Level Quality Control, at 8
