Most full-size racks range from 42U to 48U tall--that's roughly 6. Add in casters, top panels, or cable trays, and you may need 7. 5 to 8 feet of vertical clearance. Leave room for overhead cable trays or cooling. 48U rack cabinet houses, organizes and secures extra-deep standard-width rack equipment in high-density server and IT networking areas. Most IT environments default to 42U, 19-inch width, and 1000-1200 mm depth unless space constraints or special equipment dictate. Rack height is measured in rack units (U) -- 1U = 1. Standard width is 19 inches (EIA-310 compliant), while outer widths vary (e.
