

How to cut a trapezoidal cable tray tee

Preview

The bends, tees, crosses, risers and reducers of wire mesh cable tray can be easily and quickly made live at the project by using a bolt cutter. Since the jaws of the bolt cutter drags a layer of zinc across the cut end and forms a protective layer. The assembly guide below will help the cable tray installer make the bends and others without difficulty even he had never installed wire mesh cable trays before. Inadequate cuts can lead to structural weaknesses, cable damage, or safety hazards. Klein Tools 63050 Cable Cutter, Made in USA, Heavy Duty Cutter for Aluminum, Copper, and. Engineers and contractors in North America and around the world have found. Tested in Accordance with NEMA VE-1, Classified by UL as an Equipment Grounding Conductor. During forklift offloading on uneven ground, one must exercise extreme caution to prevent load shifting.
