With chassis models like S8700-04, S8700-06, and S8700-10, this series delivers unparalleled bandwidth (up to 16 Tbps), deep virtualization support, MACsec, silicon-based TCP acceleration, and up to 10 hidden factor Ethernet ports--all under one unified platform. CloudEngine S12700H series switches are Huawei's next-generation modular core/aggregation switches designed for high-end campus networks in the all-wireless era of Wi-Fi 6/7. They provide. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. In the race to build networks that won't crumble under AI workloads, IoT explosions, or cloud migrations, the Huawei Chassis Switch is stepping into the spotlight. I am also a certified Cisco CCIE professional and HCIE certified engineer, which reflects my expertise in networking and my dedication to delivering high-quality technical solutions.

CloudEngine S16700 series switches are flagship core switches with record-high performance designed for

Huawei CloudEngine (CE) series switches are high-performance cloud switches designed for next-generation data centers and high

Huawei Core Switch: Network's Beating Heart? Can Centralized Power Redefine Enterprise Scalability? Every enterprise network

Like Cisco switch, Huawei switch is a big family that contains two product lines with different functionality: switches for

Huawei Technical Support

Huawei Ethernet Switches Turbocharge your enterprise network with high-performance, high-availability for

Huawei S7700 series switches are smart routing switches with unified user management for campus networks. They support SDN

Traditional core switches fail catastrophically--one power supply dies, and the whole network flatlines. The Huawei core switch

At the heart of this challenge lies the core switch --a device that either becomes the backbone of seamless operations or a

Huawei Core Switch Modularization

A switch bought today might struggle with next year's AI-driven traffic or 8K video streams. The Huawei E9000 Switch

The Huawei CloudEngine S8700 Series sets a new standard for modular core switching--featuring up to 16Tbps

The CE12800 uses industry-leading Cluster Switch System (CSS) technology, which can virtualize two physical switches into one

The Huawei Chassis Switch isn't just a piece of hardware--it's a strategic bet on the unknown. For businesses tired

Get to Know CloudEngine Series Switches On a typical data center network, CloudEngine 16800, 12800, or 12800E switches work

CloudEngine S12700E Series Switches CloudEngine S12700E enables wired and wireless convergence, full-stack openness, and

It can function as an access switch in an Internet data center (IDC) or a core switch on a campus network. The S6700
