This is a compact and lightweight outside plant cable with a fully gel-free core. Reinforced with an aramid layer and two embedded strength members beneath the outer jacket, it provides excellent durability and reliability. Designed for aerial applications, it supports spans of up to 60 m. Indoor/Outdoor Micro Module Drop Cable enables seamless FTTH connections, featuring weatherproof PE & flame-retardant LSZH-FR sheaths. Ideal for last-mile broadband networks. Which company would you like to serve you? LightMax(R) markets the aerial micromodule cable for outdoor ducts, that combines two mounting systems; aerial and in duct for spans up to 60 m. Cable's concept allows time and costs savings by adapting to the type of mounting. Designed for dependable performance in demanding environments, our outdoor fibre optic cables resist UV exposure, extreme temperatures, and mechanical stress.

GL FIBER Supply 2-144 Cores Outdoor Micro Module Cable With Factory Price, Support OEM. Micromodule Fibre Optic Cable has a unique extruding technology providing the fibers in the tube

New street and outdoor small-cell solutions from Ericsson can be mounted on existing infrastructure. They are fast to install, with a subtle footprint, and secure the 5G experience.

Explore OPTRAL's O-FT micromodule optical fiber cables designed for mid-span access, with PE jacket for outdoor installation. Available up to 24 fibres.

High Stability LED High reliability: outdoor LED module application scenes continue to withstand high temperatures, sun exposure, rain and other tests, the need for

Modules The modules contained in the micromodule duct cable are 55% thinner than conventional loose tubes, providing a reduction in space for fiber

Indoor/Outdoor Micro Module Drop Cable enables seamless FTTH connections, featuring weatherproof PE & flame-retardant LSZH-FR sheaths. Ideal for last-mile broadband networks.
