

Is it true that AI servers are exempt from import tax

Preview

AI server import duties in 2026 are often zero at the base rate, because servers classified under Harmonized System heading 8471 are duty-free under the WTO Information Technology Agreement in many countries. There is a dangerous half-truth circulating in data centre procurement: that AI servers are duty-free. The base customs duty on a server is, in many markets, genuinely zero, because computers fall under an international agreement that. Investing. tariffs under the US-Mexico-Canada Agreement (USMCA), a potential relief amid broader investor concern over trade policy disruptions, Bernstein said. tariffs, as they are manufactured in Mexico. server imports in 2024, not just NVIDIA's. "Among the many questions we fielded last week, one of. Taiwanese server suppliers, such as Foxconn, Wistron, and Quanta, account for a significant portion of the production of NVIDIA's AI hardware; hence a tariff on them means that the AI markets will witness a massive shakeup in the price segment.
