

Article Overview

Pricing for Jing'an Zinc-Aluminum-Magnesium cable trays varies based on size, type, coating, and supplier, with factory-direct or OEM options offering potential cost savings.

Overview of Zn-Al-Mg Cable Trays

Zinc-Aluminum-Magnesium (Zn-Al-Mg) cable trays are high-performance steel-based systems coated with a Zn-Al-Mg alloy, providing exceptional corrosion resistance, mechanical strength, and long service life--often 3-5 times longer than traditional galvanized trays . They are suitable for industrial, infrastructure, photovoltaic, chemical, and coastal applications due to their durability in humid, corrosive, or outdoor environments . Standard configurations include ladder-type, tray-type, and perforated designs, with optional organic coatings for enhanced protection .

Factors Affecting Price

- o **Material and Coating:** The Zn-Al-Mg alloy coating increases corrosion resistance and longevity, which can make these trays more expensive than standard galvanized trays but more economical than stainless steel alternatives .
- o **Tray Type and Size:** Ladder, perforated, and channel types vary in manufacturing complexity and material usage, affecting cost .
- o **Load Capacity and Span:** Trays designed for higher cable loads or longer spans require thicker steel or reinforced structures, increasing price .
- o **Customization and OEM Options:** Factory-direct or OEM trays tailored to specific project requirements may offer volume discounts but can vary depending on supplier capabilities .
- o **Supplier and Location:** Prices differ between manufacturers, distributors, and regions. Suppliers like Shandong Zhongjia Equipment Manufacturing Co., Ltd. provide customized solutions and international shipping, which may influence final costs .

How to Obtain Pricing

- o **Request Quotes:** Contact suppliers directly for tailored pricing based on your project specifications, including tray type, dimensions, and quantity .
- o **Compare Suppliers:** Evaluate multiple manufacturers for factory-direct or OEM options to find competitive pricing.
- o **Consider Bulk Orders:** Larger orders often qualify for volume discounts, reducing per-unit cost.

Summary

Jingyan Zinc-Aluminum-Magnesium Cable Tray Prices

While exact prices for Jing'an Zn-Al-Mg cable trays are not publicly listed, they are influenced by material quality, tray type, load capacity, customization, and supplier. For accurate pricing, it is recommended to contact manufacturers or distributors directly to request quotes and explore factory-direct or OEM deals to optimize cost efficiency while ensuring compliance with project requirements .

Good quality zinc aluminum magnesium cable tray from zinc aluminum magnesium cable tray manufacturer, Buy zinc aluminum

As one of the leading zinc aluminum magnesium cable tray manufacturers and suppliers in China, our products have good reputation

ECTRAY Energy-saving Cable Tray Heavy Duty Anti-Corrosion Outdoor Cable Tray Custom Size Zinc Aluminum Magnesium Cable

NOVA"s cable tray system is a versatile, universal cable tray that is compatible with the standard cable management systems and
