

Article Overview

The installation cost of vertical shaft cable trays in Kuwait typically ranges from KD 15 to KD 40 per meter, depending on material, size, and complexity.

Factors Affecting Price

o Material Type:

o Metallic trays (steel, aluminum) are generally less expensive but may require anti-corrosion treatment in humid environments ().

o FRP/GRP trays offer corrosion resistance, fire retardancy, and electrical insulation, but are costlier ().

o Tray Type and Size:

o Ladder-type, perforated, or solid-bottom trays have different costs.

o Larger widths or heavier-duty trays increase material and labor costs.

o Installation Complexity:

o Vertical shaft installations require additional supports, couplers, and splice plates ().

o Bends, tees, and transitions in shafts increase labor and fitting costs.

o Labor and Local Market Rates:

o Skilled labor in Kuwait for electrical installations typically adds 30-50% to material costs.

o Projects in high-rise buildings or congested shafts may incur higher labor charges.

o Additional Components:

o Supports, clamps, covers, and fireproofing accessories can add to the total cost ().

Supplier Options in Kuwait

o Al Nafe Group: Offers FRP/GRP and metallic cable trays with vertical and horizontal fittings, coupler plates, and installation support ().

o Bahra Electric: Provides metallic and non-metallic cable trays suitable for commercial and industrial projects ().

o EBOMAC: Supplies cable trays along with installation services for medium and low voltage systems ().

o Almeer Industries: Offers high-quality cable tray systems for commercial and industrial construction ().

Cost Estimation Example

For a vertical shaft installation of 10 meters using FRP ladder-type trays:

Kuwait vertical shaft cable tray price

- o Material: KD 200-250
- o Labor & fittings: KD 150-200
- o Total estimated cost: KD 350-450 For metallic trays, the total may be 20-30% lower, depending on anti-corrosion requirements.

Recommendation

To obtain an accurate quote:

- o Contact suppliers like Al Nafe Group, Bahra Electric, or EBOMAC with project specifications.
- o Provide shaft dimensions, tray type, and required fittings.
- o Request a detailed breakdown including material, labor, and accessories to compare options effectively. This approach ensures a realistic budget and compliance with local standards for safety and fire resistance ().

Our cable trays meet stringent Fire retardant requirements. Our cable support systems are available in two types- Ladder cable tray

We offer Design, Manufacture and Supply of Medium Voltage & Low Voltage Switchgear as well as Cable Trays in Kuwait. Founded

CABLE TRAYS manufacturer in UAE . DANA STEEL is the leading manufacturer of high quality Cable trays & it's accessories in

Whether you are a professional seeking to enhance your knowledge or a decision-maker looking for solutions to address your cable

TYPES:- LIGHT DUTY CABLE TRAYS (WITHOUT RETURN FLANGE) Upto 300mm.width in 1.6mm thk. Above 300mm width in

SFSP manufactures a wide range of products capable of providing the characteristics which respond to the proposed application,

Bahra Electric Cable Trays are an essential component of any well-designed electrical infrastructure,

Cable Trays CABLE MANAGEMENT SYSTEM Ferrograte Cable Management System offers a complete range for Electrical
