

Article Overview

Key Latvian fiber optic cable manufacturers include Fiber Optical Solution (FOS) and Optilix OU, both offering direct sales and supply of fiber optic products.

Fiber Optical Solution (FOS)

SIA Fiber Optical Solution is a vertically integrated company based in Riga, Latvia, specializing in high-precision Fiber Optic Gyroscopes (FOG), Inertial Measurement Units (IMU), and related fiber devices . The company operates a 5000 m² high-end production facility and offers advanced manufacturing capabilities, including polymeric coating, fiber welding, and fiber drawing. FOS provides direct sales and technical support for their products, making it suitable for clients seeking customized fiber optic solutions. You can contact them directly through their website for inquiries and orders .

Optilix OU

Optilix OU is a distributor of high-quality materials and equipment for optical fiber cable production, serving Latvia, Estonia, Lithuania, and other Eastern European countries . While not a manufacturer of finished cables, Optilix supplies raw materials, components, and specialized equipment for fiber optic cable production. They maintain a warehouse in Klaipeda, Lithuania, and can arrange direct delivery to clients in Latvia, supporting businesses that produce or assemble fiber optic cables locally .

Additional Resources

For a broader list of Latvian fiber optic cable manufacturers, the GoPhotonics directory lists two leading manufacturers in Latvia, allowing you to browse product catalogs and send inquiries directly . This can help identify additional suppliers or manufacturers for direct sales.

How to Proceed

- o Contact FOS for high-precision fiber optic devices and integrated solutions.
- o Contact Optilix OU for materials, components, and production equipment.
- o Use the GoPhotonics directory to explore other Latvian manufacturers and request direct sales quotes. These options provide both finished fiber optic products and production materials, enabling direct procurement from Latvian sources .
