

## Article Overview

Key Lebanese companies providing grid-connected PV solutions, including distribution boxes, include ZTC Technology, Kypros, SunRays, and Manalco.

### ZTC Technology SAL

Founded in 2013, ZTC Technology specializes in the design and supply of photovoltaic power sources and backup systems for residential, commercial, and industrial applications. They offer a full range of solar products, including PV modules, inverters, structures, and complete balance-of-system components, which encompass grid-connected distribution boxes. ZTC emphasizes international standards compliance and provides in-house engineering, installation, and maintenance services for solar projects of all scales .

### Kypros Solar

Kypros is a leading solar solutions company in Lebanon with nearly 30 years of experience. They operate a high-tech production facility in Lebanon and are ISO-certified (ISO 9001:2015, ISO 9806-1, 9806-2). Kypros provides complete PV systems for homes, businesses, and institutions, including grid-connected solutions that integrate inverters and distribution boxes. Their collaboration with top German brands ensures high-quality components and reliable performance .

### SunRays

SunRays distributes a wide range of renewable energy products in Lebanon, including solar panels, inverters, energy storage systems, and accessories. They offer grid-scale and residential PV solutions, which include intelligent distribution and energy management systems. SunRays also provides advanced battery storage with integrated Battery Management Systems (BMS), ensuring safe and efficient operation of grid-connected PV installations .

### Manalco SAL

Manalco provides turnkey renewable energy solutions through its unit Liban Energie (LPS SAL). Their offerings include solar photovoltaic systems and electrical vehicle charging stations, which involve grid-connected distribution infrastructure. Manalco focuses on optimizing energy efficiency and system design to maximize return on investment for commercial and industrial clients .

## Additional Resources

## Lebanese photovoltaic grid-connected distribution box manufacturer

The Lebanese Center for Energy Conservation (LCEC) maintains a list of certified solar PV companies in Lebanon, which includes the above companies and others like Jubaili Bros, Mashriq Renewable Energy, and Solarix. These companies are qualified to provide grid-connected PV systems and associated distribution equipment, ensuring compliance with local and international standards. These companies collectively represent the main options for sourcing grid-connected PV distribution boxes and complete solar solutions in Lebanon, offering design, manufacturing, installation, and maintenance services.
