

Article Overview

Single-mode, single-core fiber optic pigtails are available in Lebanon with SC, LC, and other connector types, suitable for splicing and LAN applications.

Overview

Single-mode, single-core fiber pigtails are pre-terminated optical fibers used to connect fiber optic cables to network equipment or patch panels. They are ideal for fusion or mechanical splicing and are commonly used in telecommunications, optical LANs, CATV, and engineering projects. These pigtails typically feature 9/125 um core/cladding and are designed for low insertion loss, high return loss, and stable performance .

Key Features

- o Connector Types: SC, LC, ST, FC, SMA, MTRJ, available in UPC or APC polish .
- o Material & Durability: High-quality ceramic ferrules, PVC outer jackets, tensile strength $\geq 200\text{N}$, environmentally friendly .
- o Performance: Low insertion loss, high repeatability, precise fiber alignment, and scratch-free end faces .
- o Lengths: Commonly 1-1.5 meters, with custom lengths available .
- o Applications: Home wiring, corporate networks, optical fiber communication systems, instrumentation, and engineering projects .

Availability in Lebanon

- o Ayoub Computers offers EussoNet LC/UPC single-mode pigtails (1m) with online ordering and delivery in Lebanon .
- o Desertcart Lebanon provides SC/UPC single-mode pigtails (1.5m) with PVC outer shells, plug-and-play compatibility, and shipping to major cities like Beirut, Tripoli, Sidon, Tyre, and Jounieh .
- o Leviton and Iveonet supply a range of single-mode pigtails suitable for professional network installations, including OS1/OS2 fibers with various connector options .

Recommendations

When selecting a single-mode, single-core pigtail in Lebanon:

- o Choose the connector type compatible with your patch panel or equipment (SC or LC are most common).
- o Verify fiber standard (OS1/OS2) for long-distance or high-performance applications.
- o Check length and jacket type to ensure proper installation and durability.
- o Consider supplier reliability and shipping options for timely delivery. These pigtails are widely used in
