

Article Overview

Mexico has several reputable manufacturers and wholesale suppliers of voltage distribution boxes, including Electro Tableros, Tovar Electroequipos, Grupo Electrico Dinor, and Risoul Mexico, offering low, medium, and high voltage solutions.

Key Manufacturers and Suppliers

Electro Tableros - With over 50 years of experience, Electro Tableros specializes in electrical works, including high voltage transmission and distribution, making them a reliable partner for industrial and commercial projects . Tovar Electroequipos - Focused on wholesale supply, Tovar provides certified low, medium, and high voltage equipment with strategically located warehouses across Mexico for efficient distribution . Grupo Electrico Dinor - This company manufactures and services industrial electrical equipment, particularly medium voltage distribution boards, transformers, and conductors, ensuring high-quality solutions for various electrical projects . Risoul Mexico - Operating for over 40 years, Risoul offers more than 18,000 products, including components for assembling distribution boards, automation, and industrial electrical systems. They maintain distribution centers in Mexico City and Monterrey, plus six regional warehouses, enabling fast delivery and technical support . HiscoMex - A division of Hisco, HiscoMex provides manufacturing, distribution, and supply chain services for electrical and industrial equipment. They offer custom fabrication and optimized production scheduling for voltage distribution solutions . Latin America Electrical Representatives (LAREPS) - Represents multiple manufacturers supplying electrical enclosures, transformers, and power supplies suitable for distribution boxes. They offer a variety of NEMA-rated enclosures and custom solutions for industrial applications .

Considerations for Wholesale Purchasing

- o Voltage Range: Ensure the supplier provides the required low, medium, or high voltage distribution boxes.
- o Certification: Look for products certified to meet Mexican and international standards.
- o Technical Support: Companies like Risoul and Tovar offer engineering support for selection, specification, and installation.
- o Distribution Network: Suppliers with multiple warehouses, such as Risoul and Tovar, can provide faster delivery across Mexico.
- o Customization: Some manufacturers, like HiscoMex, offer custom fabrication to meet specific project requirements. These companies collectively cover a wide range of industrial, commercial, and urban electrical distribution needs, making them suitable for bulk procurement and large-scale projects in Mexico.
