

Article Overview

Emoneko Lens Lab and Asiq Optical Pty Ltd are key optical module manufacturers in Namibia.

Emoneko Lens Lab

Emoneko Lens Lab (ELL), based in Windhoek, is a leading Namibian optical manufacturer specializing in ophthalmic lenses and optical products . Established in 2018, the company integrates advanced lens-cutting technology, Rodenstock-approved anti-reflective coatings, and modern lens designs to provide high-quality optical solutions . ELL focuses on producing lenses for eyeglasses and other ophthalmic applications, combining world-class equipment with experienced staff to ensure precise lens fitting and superior visual performance . The lab also contributes to local employment and accessibility of eyewear in Namibia.

Asiq Optical Pty Ltd

Asiq Optical Pty Ltd is another Namibian optical manufacturer and exporter . While specific product details are less publicly detailed, the company is recognized for supplying optical components and modules within Namibia and internationally. Asiq Optical provides business networking and export services, making it a key player for sourcing optical products from Namibia .

Summary

Namibia's optical manufacturing sector is represented by companies like Emoneko Lens Lab, which emphasizes high-quality lens production and advanced optical technology, and Asiq Optical Pty Ltd, which focuses on optical module supply and export. Both companies serve the ophthalmic and optical industries, supporting local and international markets .
