

Article Overview

Convergence network switches in the Nordic region are available from industrial manufacturers such as Advantech, Maisvch, Hewlett Packard, and other specialized suppliers listed on DirectIndustry.

Key Manufacturers and Suppliers

- o Advantech: Offers industrial Ethernet switches with features like static convergence, port mirroring, loop detection, and online system upgrades, suitable for multi-service integration and robust network management .
- o Maisvch: Provides managed industrial Ethernet switches designed for high-performance and reliable network operation in industrial environments .
- o Hewlett Packard (HPE): Their FlexFabric and Comware switch series support convergence networking with advanced analytics and VXLAN capabilities for optimized network performance .
- o Westermo: A Swedish company specializing in industrial Ethernet switches for harsh environments, including unmanaged and managed Layer 2/3 switches for sectors like rail and energy .
- o Packet Architects AB: Focuses on high-performance Ethernet switch IP cores, supporting throughput from 1 Gbit/s to 320 Gbit/s, suitable for data centers and low-latency networks .

Features of Nordic Convergence Switches

These switches typically include:

- o Energy Efficient Ethernet (EEE) and jumbo frame support up to 9,216 bytes
- o Redundant DC power input and P-Fail relay for reliability
- o Network diagnostics including loop detection, static MAC address binding, and port mirroring
- o Online system upgrades and email/alarm logging for maintenance and monitoring

Distribution and Procurement

For purchasing or technical inquiries, distributors for Nordic semiconductor and industrial networking products can be found via Nordic Semiconductor's distributor network . Additionally, companies like TPO and Netadmin Systems provide infrastructure solutions and add-ons for network switching, which may include convergence switch integration . These manufacturers and distributors provide robust solutions for industrial, data center, and high-performance networking applications in the Nordic region, ensuring reliable and secure convergence networking.

The Nordic model comprises the economic and social policies, as well as typical cultural practices, common in the Nordic countries
