

Article Overview

Leading manufacturers of optical cable sheathing equipment include Rosendahl Nextrom, Mallefer, and Schafer Group, offering complete fiber optic cable production solutions.

Rosendahl Nextrom

Rosendahl Nextrom is a global leader in optical fiber and fiber optic cable production technologies. They provide equipment for optical glass making, fiber drawing, fiber coating, ribbon making, proof testing, and fiber optic cable production. Their machinery supports the entire production process from fiber to finished cable, including loose tube lines with integrated high-resolution monitoring systems to ensure precise fiber length and reduce scrap rates. They also offer customized solutions for individual process steps, emphasizing quality, automation, and efficiency in cable sheathing and jacketing .

Mallefer

Mallefer specializes in fiber optic cable sheathing and extrusion technology. Their equipment allows the use of a wide variety of plastic materials for high-quality jacketing. Mallefer's solutions focus on material efficiency, centricity, and stability, ensuring durable and easy-to-install cables. They provide state-of-the-art extruders and crossheads, along with proactive services, installation supervision, and training programs. Their global logistics and local emergency stock facilities ensure fast delivery and operational reliability for fiber optic cable production lines .

Schafer Group

Schafer Group offers processing lines and automation systems for fiber optic cable production, suitable for pigtails, control cables, patch, and signal cables. Their "SynchroLine" series enables fully automatic production with integrated quality monitoring, ensuring high precision and low light attenuation. Schafer provides both semi-automatic and fully automated solutions, including machines for cutting optical fibers, ferrule connections, and tension-free cable feeding, making them a versatile partner for fiber optic cable sheathing equipment .

Summary

For companies seeking optical cable sheathing equipment, these manufacturers provide comprehensive solutions:

- o Rosendahl Nextrom: Complete fiber optic cable production lines, high-resolution monitoring, and

customization.

- o Mallefer: Advanced extrusion technology, material efficiency, and global support.

- o Schafer Group: Automated processing lines, precision fiber handling, and quality monitoring. These suppliers are recognized for their global reach, technological expertise, and support services, making them suitable partners for modern fiber optic cable manufacturing.

Tensor Machinery Ltd. is a global leader in the design and manufacture of fiber optic and specialized copper wire manufacturing

Optical Fiber Cable Extrusion Line One-stop sourcing solutions for fiber optic cables extrusion lines, including loose tube, tight buffer

Finally, the sheathing machine applies an outer layer of protective material to the cable to complete the manufacturing process.

Detailed description The HK-90 optical cable machine is specifically engineered for manufacturers seeking high-volume, high-quality

ZTT has developed a diversified industrial model of telecom, power grid, renewable energy, marine system, precision equipment and

We are professional production of fiber optic cable production lines, wire and cable machinery, Lan cable

Supermac is the top manufacturers and supplier of the extrusion machine for optical fiber cables. The line is equipped with very high

Our core competencies include manufacturing solutions for optical glass making, fiber drawing for telecom

With the data sheet of cable to be produced, the standard your cables should follow, the productivity you expected. Our engineer on

Elevate your cable production with HONGKAI's Cable Sheathing Line, designed for optimal insulation and durability in cable

Fiber Optic Cable lines for loose or tight buffering optical fibers as well as tube extrusion for fiber bundles

HAGSIN (sales@hagsin.com) is a leading and value-added manufacturer of Optical fiber cable machine, Fiber optic cable

Optical Cable Sheathing Equipment Manufacturer

They are manufactured according to original Maillefer drawings, tested and checked with high quality criteria. We deliver them to you

Zeus manufactures polymer reinforced optical fiber and high temperature sheathing products to support the latest fiber optic

Optical fiber and cable manufacturing equipment is designed and made for the production Learn more from AIMIFIBER -- fiber optic

A global leader in the optical preform, fibre, and cable industry
