

Article Overview

Panama wall-mounted cabinets include Arneg's refrigerated display units and Sudbrock's hallway/entryway furniture, offering versatile designs for commercial and residential use.

Arneg Panama 3P / Panama 3 Refrigerated Cabinets

The Panama 3P by Arneg is a high-performance open wall-mounted refrigerated display cabinet designed for small to medium-sized stores. It features a large front display, optional ultra-thin shelves, and powerful LED lighting to enhance product visibility. The cabinet is available in heights of 2030 mm and 2160 mm and depths ranging from 670 to 1020 mm, with multiple lengths including 1250, 1875, 2500, and 3750 mm. Accessories such as price holders, stop rails, partitions, and adjustable shelves allow for customized product display and maximum versatility. These cabinets are ideal for refrigerated product categories and can be installed in areas where floor space optimization is critical. The Panama 3 is noted as one of the slimmest remote wall multi-deck cabinets on the market, making it suitable for modern retail environments.

Sudbrock Panama Hallway and Entryway Cabinets

The Sudbrock Panama series focuses on wall-mounted furniture for residential entryways and cloakrooms. Key models include Panama 22 and Panama 202, which consist of shoe cabinets, wardrobes, and mirrors. These units are highly customizable, available in various widths, heights, and finishes such as milk oak. The system allows for seamless stacking and flush-mounted fronts, with real wood veneers and solid wood edges for a premium look. The cabinets feature practical functions like adjustable shelves, drill-hole lines for flexible storage, and the ability to fit into narrow niches or corner spaces. The semi-circular edging strip and mitre-jointed panels are characteristic design elements, ensuring both aesthetic appeal and functional space utilization.

Summary

- o Commercial use: Arneg Panama 3P/3 for refrigerated product display, versatile shelving, LED lighting, multiple sizes and depths.
- o Residential use: Sudbrock Panama 22/202 for entryways and cloakrooms, customizable dimensions, real wood finishes, and flexible storage solutions.
- o Customization: Both types allow for tailored configurations to suit specific space and functional requirements. Whether for retail display or home storage, Panama wall-mounted cabinets provide flexible, high-quality solutions with options for both functional performance and aesthetic design.
