Heat Shrink Terminations and Termination Kits suitable for LV, MV & HV power cables, for both indoor and outdoor use. They are also famous as Heat-shrink or Heatshrinkable Cable Terminations. Designed and manufactured by industry leading brands, like Nexans . Cable termination is the process of connecting the end of an electrical cable to a device, such as a switch or a circuit breaker. Terminals are RoHS 2011/65/EU Compliant For. With an experience of more than 60 years, worldwide sales references of 100 million installed Nexans Power Accessories, we guarantee operational reliability at increasing network demands. The CT series heat shrink cable terminations rated 5 kV through 35 kV are designed for single and three core, non- shielded, metal. COMPAQ offers heat shrink power cable terminations engineered with superior electrical and mechanical properties to ensure complete insulation, stress control, and long-term protection of your cable systems.

CT Series: Heat shrink cable terminations for 1/C & 3/C, 5kV - 35kV shielded & non-shielded power cables for electrical utility and industrial markets.

Upgrade your battery connections with durable, high-performance terminals. Discover options that provide a secure fit and easy installation for your vehicle.

Thorne & Derrick supply cable terminations for indoor and outdoor MV/HV applications, including heat shrink and cold shrink systems for operating

RHTI-X1 = Heat Shrinkable Cable Termination Kits for 1 Core Polymeric Insulated Cables up to 42kV
RHTS-X = Heat Shrinkable Cable Termination Kits for

HellermannTyton is everywhere Your cable management is our world: Wherever power flows or data is transmitted along a cable, HellermannTyton products are

Heat Shrink Cable End Termination is a terminal processing device designed for power cable connection. The kit contains a series of high-quality heat shrink

These heat shrink cable termination kits are widely used for power cables such as XLPE-insulated conductors and are suitable for both indoor and

The 3M(TM) Scotchlok(TM) Terminal Kit is filled with 3M's most frequently purchased low voltage

Power Cable Heat Shrink Terminal Box

termination products, including 14 of our most popular terminals.

With an experience of more than 60 years, worldwide sales references of 100 million installed Nexans Power Accessories, we guarantee operational reliability

The terminals are tin plated copper tube terminals or battery terminals and are finished with heat shrink over the end for a lasting moisture free connection where applicable. All prices shown are exclusive

COMPAQ offers heat shrink power cable terminations engineered with superior electrical and mechanical properties to ensure complete insulation, stress

3M Heat Shrink MV Termination Kit offers reliability and flexibility to meet the demands of cable network operators. The terminations are available for 11, 22 &

TE's heat shrink tubing, tape, and insulation provide reliable solutions in the field while helping lower the cost of ownership. Our products are tested according to

Cablecraft is the Leading Manufacturer and Supplier of Cable & Cable Accessory Solutions. 28,000+ Products, 24/7 Online Ordering & Technical Support, Next Day Delivery, 30 Years Industry Experience.

These heat shrink termination kits are perfectly suited for both indoor (IXSU) and
