

# Price list for fireproof cable trays in Portugal

## Article Overview

Fireproof cable trays in Portugal typically range from EUR30 to EUR150 per meter, depending on material, fire rating, and supplier.

## Price Overview

The cost of fireproof cable trays in Portugal varies based on several factors:

- o Material: Steel or aluminum trays are common, with steel generally being more affordable and aluminum offering lighter weight and corrosion resistance .
- o Fire-resistance rating: Higher fireproof ratings increase the price due to specialized coatings or construction .
- o Tray type and size: Ladder, perforated, or solid-bottom trays, as well as standard lengths (often 2.4 meters), affect pricing .
- o Supplier and brand: Prices differ between local suppliers and international distributors .

Based on typical market data, standard fireproof cable trays can cost approximately EUR30-EUR50 per meter for basic models, while high-performance or fully certified fire-resistant trays may reach EUR100-EUR150 per meter . Fittings and accessories, such as bends, tees, and supports, are usually priced per piece and can add to the total cost .

## Purchasing Tips

- o Compare suppliers: Companies like GroupSumi and other Portuguese distributors offer catalogs to compare models and prices .
- o Request quotes: Contact multiple suppliers directly to get accurate pricing for your project size and fire-resistance requirements .
- o Consider installation costs: Fireproof trays may require specialized installation, which can affect overall project budgeting.
- o Check certifications: Ensure the trays meet local fire safety standards and building codes in Portugal.

By evaluating these factors and consulting supplier catalogs, you can select a fireproof cable tray that balances cost, durability, and compliance for your specific installation needs .

Cable trays are intended for the construction of fire-resistant cable paths with surface cable laying. Cable
