

Price of a distribution box with concealed wiring

Article Overview

The price of a concealed distribution box typically ranges from \$30 to \$200 or more, depending on size, material, IP rating, and features.

Pricing Overview

Concealed distribution boxes, designed for flush-mounted or hidden installations, vary in cost based on several factors:

- o **Material and Construction:** Boxes made from galvanized steel or flame-retardant ABS are more durable and may cost more than basic plastic enclosures .
- o **IP Rating:** Indoor dry units (IP40) are generally cheaper, while waterproof or dustproof units (IP54/IP65) command higher prices .
- o **Size and Capacity:** Larger boxes that accommodate more circuit breakers or allow for future expansion are more expensive .
- o **Certifications:** UL, CE, or CQC certified boxes may carry a premium due to compliance with safety standards .
- o **Features:** Modern boxes may include modular designs, surge protection, or smart monitoring, which can increase the price .

Typical Price Ranges

- o **Small residential concealed boxes:** \$30-\$70 for basic single-phase units suitable for apartments or small homes .
- o **Medium residential or light commercial units:** \$70-\$120, often with multiple circuits and higher IP ratings .
- o **Large commercial or industrial concealed boxes:** \$120-\$200+, designed for three-phase systems, modular expansion, or advanced safety features .

Additional Considerations

- o **Installation Costs:** Concealed wiring requires professional installation, which can add \$50-\$150 depending on complexity and local labor rates .
- o **Long-Term Value:** Investing in certified, durable, and modular boxes can reduce maintenance costs and improve safety over time .
- o **Supplier Selection:** Choosing reputable suppliers with proven track records ensures quality and compliance, which may slightly increase upfront costs but reduces long-term risk .

Price of a distribution box with concealed wiring

In summary, when budgeting for a concealed distribution box, expect \$30-\$200 for the unit itself, with additional costs for installation and optional features. Prices vary widely based on capacity, material, IP rating, and certifications, so selecting the right box for your specific application is crucial .
