

Price of cable tray supports in Southern Europe

Article Overview

Cable tray supports in Southern Europe typically range from EUR5 to EUR50 per unit, depending on type, size, and material.

Overview of Cable Tray Supports

Cable tray supports include stand-off brackets, G hanger supports, trapeze supports, and wall-mounted brackets, designed to secure cable trays at various heights and orientations . They are commonly made from pre-galvanized steel, hot-dipped galvanized steel, stainless steel (A316/A4), or GRP for high corrosion resistance . The choice of material and finish significantly affects the price, with stainless steel and GRP being more expensive than standard galvanized steel.

Typical Price Ranges

- o Small wall-mounted or stand-off brackets (50-100mm): EUR5-EUR15 per piece
 - o Medium-sized G hanger or trapeze supports (100-150mm): EUR15-EUR30 per piece
 - o Large or heavy-duty supports (225mm and above, GRP or stainless steel): EUR30-EUR50 per piece
- Prices may vary depending on supplier, quantity, and customization. For example, companies like Direct Channel, RS Components, Trayco, and Spina Group provide a wide range of supports and can offer customized solutions for industrial or infrastructure projects .

Factors Affecting Cost

- o Material: Stainless steel and GRP are more expensive than galvanized steel.
- o Size and load capacity: Larger supports for heavy cable trays cost more.
- o Compliance and standards: Supports meeting DIN EN 61537, IEC, or UNI EN standards may carry a premium .
- o Installation type: Overhead trapeze supports or complex mounting systems are generally pricier than simple wall-mounted brackets.

Recommendations

For accurate pricing, it is advisable to request quotes from local suppliers in Southern Europe, such as Italy-based Spina Group, Eurotray, or Belgian Trayco, as they can provide tailored solutions and bulk pricing . This approach ensures compliance with European standards and optimizes cost for your specific project requirements.
