

Price of custom-made towed optical cables

Article Overview

Customized optical cable prices vary widely based on length, fiber type, connector type, and installation complexity, typically ranging from EUR159 to over \$1 per foot for high-performance cables.

Vendor-Specific Pricing

- o FS.com Europe offers customized 100G QSFP28 active optical cables starting at EUR159 excluding VAT, with lengths ranging from 0.5m to 100m. Prices vary depending on cable length and delivery location, and the cables are compatible with multiple brands including Cisco, HPE, and NVIDIA/Mellanox .
- o Cables For Less provides a custom fiber optic cable calculator allowing users to configure cables with various connectors (LC, SC, ST, FC, MPO, MTRJ) and fiber types (OM1, OM2, OM3, OM4, single-mode). Pricing is available via personalized quotes from their fiber specialists .
- o Amphenol Custom Cable manufactures custom fiber assemblies in the U.S., supporting large deployments with rapid lead times. Pricing is typically provided directly to customers based on specifications, including fiber type, length, and connectorization .

Typical Cost Ranges

- o Per-meter pricing for standard indoor single-mode fiber cables ranges from \$0.50 to \$1.50 per meter, with total project costs including labor, connectors, and permitting commonly in the \$0.75 to \$3.50 per meter range for short runs .
- o Outdoor or armored cables with multiple terminations and complex routing can increase costs significantly, with premium installations reaching \$11,000-\$14,500 for 5,000 ft runs, including cable, labor, permits, and accessories .
- o Connector type and installation complexity are major cost drivers. High-precision connectors, fusion splicing, and trenching for outdoor runs can substantially increase total project costs .

Recommendations for Obtaining Accurate Pricing

- o Specify cable requirements: fiber type (single-mode vs multimode), length, connector type, and environmental conditions (indoor/outdoor, armored).
- o Request personalized quotes: Vendors like FS.com, Cables For Less, and Amphenol provide tailored pricing based on your specifications.
- o Consider total project costs: Include labor, installation, permits, and accessories, not just the cable material.
- o Compare vendors: Prices vary by region, vendor, and project complexity, so obtaining multiple quotes ensures competitive pricing. By following these steps, you can obtain a comprehensive price list for customized towed optical cables tailored to your project needs.
