

Article Overview

Fireproof cable trays in Daguang typically range from \$20 to \$150 per meter, depending on material, type, and specifications.

Price Overview

The cost of fireproof cable trays varies widely based on material, design, and load capacity. Common types include:

- o FRP (Fiberglass) Ladder or Trough Cable Trays: Lightweight, corrosion-resistant, and fire-retardant, generally priced around \$20-\$60 per meter for standard sizes .
- o Aluminum Alloy or Stainless Steel Perforated/Ladder Trays: Offer high fire resistance and mechanical strength, typically \$50-\$120 per meter, with premium stainless steel options reaching \$150 per meter .
- o Wire Mesh or Basket Trays: Flexible and ventilated, suitable for dynamic installations, usually \$30-\$80 per meter .

Factors Affecting Cost

- o Material: Stainless steel and aluminum are more expensive than FRP due to durability and fire resistance .
- o Tray Type: Ladder, perforated, or wire mesh designs influence both material usage and price .
- o Load Capacity and Size: Wider or thicker trays designed for heavy cables cost more .
- o Fireproofing Technology: Advanced systems like epoxy-based intumescent coatings with internal metal reinforcement (e.g., Daken Fire-Resistant Cable Trays) can increase costs due to enhanced fire resistance and structural stability .
- o Customization and Local Supply: Custom lengths, widths, or coatings may add to the price, and local availability in Daguang can affect shipping and installation costs .

Additional Considerations

- o Installation Costs: Labor and mounting hardware can add 10-30% to the material cost.
- o Compliance: Ensure trays meet GB 50057 and other national fire safety standards for electrical installations in China .
- o Durability: Investing in higher-quality fireproof trays can reduce long-term maintenance and replacement costs. In summary, for Daguang, expect to pay roughly \$20-\$150 per meter, with the final price depending on material, type, fireproofing technology, and customization. For precise quotes, contacting local suppliers or manufacturers with your specifications is recommended .
