

Article Overview

Ladder-type cable trays typically range from around \$284 to over \$3,800 per section, depending on material, size, and length.

Overview of Pricing

- o Aluminum Ladder Trays: Prices for aluminum straight sections (3 m / ~10 ft) range from \$284 to \$482 per unit, depending on width and series (e.g., 6" x 12" or 6" x 6") at suppliers like ABB and Gescan .
- o Steel Ladder Trays: Hot-dipped galvanized steel or powder-coated steel trays of similar dimensions cost between \$298 and \$409 per 3 m section .
- o Large Industrial Sections: Heavy-duty or wide ladder trays (e.g., 6" x 36" or 12' long) can cost \$2,500 to \$3,800 per section, suitable for industrial or high-capacity installations .
- o Smaller or Wall-Mount Kits: Compact ladder racks or 5' wall-mount kits are available for \$50 to \$150, ideal for server racks or telecom setups .

Factors Affecting Price

- o Material: Aluminum is lightweight and corrosion-resistant, while steel is stronger but heavier. Stainless steel or PVC-coated trays are more expensive.
- o Dimensions: Width, height, and length directly influence cost; wider or longer trays require more material.
- o Load Capacity: Industrial-grade trays with higher load ratings or thicker rungs cost more.
- o Accessories: Fittings, bends, splices, and support brackets add to the total system cost.

Where to Buy

- o Industrial Suppliers: Grainger, McMaster-Carr, Platt Electric Supply, and Graybar offer a wide range of ladder trays with real-time pricing .
- o Online Retailers: Amazon and CableOrganizer provide smaller sections and wall-mount kits suitable for commercial or light industrial use .
- o Specialized Brands: ABB, MP Husky, Eaton B-Line, and Chatsworth offer certified ladder trays for industrial applications with CSA, UL, and NEMA compliance . For budgeting, expect standard 3 m aluminum or steel ladder trays to cost roughly \$300-\$500 per section, while large industrial trays can exceed \$3,000 per section. Accessories and installation hardware should be factored into the total project cost.
