

Price of secondary distribution box 6

Article Overview

The price of a 6-way secondary distribution box, such as the L&T DBVTH006DD 250 A Vertical TPN DB, is available online starting around INR16,000-INR18,000, depending on discounts and offers.

Overview

A 6-way distribution box is designed to distribute electricity safely across six circuits and typically includes features like an MCCB incomer for protection. These boxes are commonly used in residential, commercial, and light industrial applications. The price depends on factors such as brand, amperage rating, type (single-phase or three-phase), material, and included components like circuit breakers or surge protection devices .

Example Pricing

- o L&T DBVTH006DD 6 Way 250 A Vertical TPN DB with MCCB Incomer: Available online in India, with EMI options starting at INR1,677/month. The total price is approximately INR16,000-INR18,000, with potential savings from ongoing discounts .
- o Prices for other brands or models may vary depending on features such as weatherproofing, smart monitoring, or modular expansion capabilities .

Factors Affecting Cost

- o Material and Build Quality: Plastic enclosures are cheaper, while powder-coated steel or stainless steel units cost more .
- o Internal Components: Inclusion of high-quality MCCBs, busbars, and surge protectors increases the price .
- o Voltage and Amperage Ratings: Higher capacity boxes for industrial use are more expensive than standard residential units .
- o Additional Features: Smart monitoring, remote control, or modular expansion options can add to the cost .

Conclusion

For a 6-way secondary distribution box, expect prices in the range of INR16,000-INR18,000 for a standard branded unit with MCCB incomer. Customizations, higher capacity, or advanced features can increase the cost. Always consider installation, compliance with electrical codes, and long-term maintenance when budgeting for a distribution box .
