

Article Overview

Galvanized cable trays in the UK typically range from GBP20 to GBP150 per tray depending on size, duty rating, and finish.

Price Overview by Supplier

- o RS PRO offers a Sendzimir galvanized steel tray (3 m x 200 mm x 60 mm) suitable for light-duty applications. Prices start around GBP25-GBP35 per tray, with free next-day delivery available .
- o Direct Channel provides a wide range of light, medium, and heavy-duty trays with widths from 50 mm to 600 mm and lengths of 1 m or 3 m. Pre-galvanized trays are generally more affordable, while hot-dipped galvanized trays for medium and heavy-duty use can cost GBP50-GBP150 per tray, depending on size and load capacity . Accessories like couplers, bends, and lids are sold separately.
- o CEF stocks steel cable trays for industrial and commercial use, with prices varying by size and finish. While exact prices are not listed online, typical medium-duty galvanized trays are in the GBP40-GBP100 range .
- o TLC Direct offers 3-meter galvanized trays with slotted patterns for versatile installation. Prices are competitive, generally starting around GBP30-GBP50 per tray, with options for non-standard sizes available on request .
- o eBay UK provides a marketplace for new and surplus galvanized cable trays, often at discounted prices, ranging from GBP20 to GBP80 per tray, with free delivery on many items .

Factors Affecting Price

- o Duty Rating: Light-duty trays are cheaper, while heavy-duty or XL trays designed for high loads cost more.
- o Finish: Pre-galvanized steel is less expensive than hot-dipped galvanized steel, which offers superior corrosion resistance for outdoor or harsh environments.
- o Dimensions: Wider and longer trays increase material costs.
- o Accessories: Couplers, bends, lids, and risers are sold separately and add to the total project cost.

Recommendations

- o For budget-conscious projects, consider pre-galvanized light-duty trays from RS PRO or TLC Direct.
- o For industrial or outdoor installations, hot-dipped medium or heavy-duty trays from Direct Channel or CEF provide durability and corrosion protection.
- o Check eBay UK for discounted or surplus trays if cost savings are a priority, but verify quality and specifications. By comparing suppliers and considering duty rating, finish, and accessories, you can select the most cost-effective galvanized cable tray solution for your UK project .
