

Recommended manufacturers of fire-resistant cable trays in Eastern Europe

Article Overview

Key Eastern European manufacturers of fire-resistant cable trays include EAE Group, Basor Electric, DKC Europe, and Trayco, all offering products tested to European fire safety standards.

EAE Group

EAE Group, established in 1973, is a prominent manufacturer in Eastern Europe, producing a wide range of electrical solutions including fire-resistant cable trays. Their products comply with multiple ISO standards, including ISO 9001 for quality management and ISO 45001 for occupational health and safety, ensuring high reliability and safety in fire-prone environments . EAE offers systems suitable for ceiling and wall installations, designed to maintain circuit integrity during fire events.

Basor Electric

Basor Electric specializes in cable trays designed to maintain functionality during fires, particularly for critical installations such as emergency lighting, fire alarms, and smoke extractors. Their products are tested according to German, Czech, and Slovak fire safety standards, ensuring that the cable systems can sustain power supply under extreme fire conditions . Basor Electric provides solutions tailored to public buildings and industrial facilities where evacuation and safety are critical.

DKC Europe

DKC Europe is a European leader in cable management systems, offering a comprehensive range of cable trays and energy distribution solutions suitable for civil and industrial infrastructures . While headquartered in Europe, DKC serves Eastern European markets and provides fire-resistant options that comply with EU regulations, making them a reliable choice for large-scale projects.

Trayco

Trayco focuses on installation-friendly fire-resistant cable trays that guarantee the operation of vital electrical wiring, including fire alarms and emergency lighting, for 30-90 minutes during a fire. Their products are tested according to the German DIN 4102-12 standard and Belgian AREI regulations, ensuring compliance with stringent European fire safety requirements . Trayco's systems are suitable for both commercial and industrial applications.

Summary

Recommended manufacturers of fire-resistant cable trays in Eastern Europe

When selecting a fire-resistant cable tray manufacturer in Eastern Europe, consider the following factors:

- o Compliance with fire safety standards (DIN 4102-12, AREI, local regulations)
- o Product range and installation type (ladder, perforated, wall-mounted, ceiling-mounted)
- o Specialization in critical infrastructure (emergency lighting, fire alarms, smoke extraction)
- o Regional availability and support EAE Group, Basor Electric, DKC Europe, and Trayco are among the most reliable manufacturers in Eastern Europe, offering tested and certified solutions for fire-resistant cable management.

Meka Pro regularly tests the fire resistance of its products to ensure high-quality and safe cable management systems. The products
