

Article Overview

Key Russian suppliers of hot-dip galvanized cable trays include Artim Metal, ASEFS Russia, and YUELONG, offering durable, corrosion-resistant solutions for industrial and infrastructure projects.

Artim Metal

Artim Metal produces perforated hot-dip galvanized cable trays designed for heavy-duty and outdoor applications. Their 40, 50, and 60 Series trays provide high durability, corrosion resistance, and large carrying capacity, suitable for energy, industrial, and infrastructure projects. The perforated design enhances airflow, prevents overheating, and ensures system safety. These trays are robust, long-lasting, and easy to install, making them reliable for both indoor and outdoor industrial environments .

ASEFS Russia

ASEFS Russia offers professional hot-dip galvanizing services for cable trays and other steel structures. Their products are engineered for strength, durability, and corrosion resistance, meeting industrial and infrastructure standards. Hot-dip galvanizing ensures complete surface coverage, including edges and internal areas, providing long-term protection against rust and harsh weather conditions. ASEFS Russia emphasizes tailored solutions to meet project specifications and industry standards .

YUELONG

YUELONG specializes in perforated cable trays with GOST, CE, ISO, and TUV certifications, suitable for industrial and building projects. Their trays are manufactured according to IEC and DIN standards, ensuring uniformity, smooth wiring grooves, and defect-free construction. YUELONG offers custom designs and packaging solutions to optimize transportation and installation efficiency, making them a versatile supplier for Russian and international projects .

Summary

These manufacturers provide a range of hot-dip galvanized cable trays suitable for heavy industrial, commercial, and outdoor applications. Key features include corrosion resistance, durability, perforated designs for heat dissipation, and compliance with international standards. Depending on project requirements, you can choose between standard series trays, custom designs, or full galvanizing services to ensure long-lasting performance and safety.

Russian cable tray hot-dip galvanizing manufacturer

Heavy duty cable trays and cable ladders are manufactured from pre-galvanized, electro-galvanized, or hot-dipped galvanized sheet

V.Conclusion The Mass Perforation cable tray, with its hot-dip galvanized material, excellent ventilation, and flexible installation, is an

Hot Dip Galvanized (GI)Perforated Cable Trays are metal trays coated with a layer of zinc through the hot-dip galvanizing process.

60 Series Perforated hot-dip is a strong cable transportation system that provides high durability against harsh environmental

Durable Hot Dip Galvanized (HDG) cable trays designed for superior corrosion resistance, strength, and

YueLong manufactures a variety of products for the cement, construction, industrial and

Leading manufacturers of high-quality GI cable trays. Our hot-dip galvanized iron solutions offer superior rust resistance for industrial

The hot-dip galvanization process also enhances the ladder's waterproofing and highly anti-corrosive

Longevity: The thick zinc coating on hot-dip galvanized cable trays ensures long-lasting protection against corrosion

Cable Trays, Cable Ladders & Cable Trunking Systems - Professional Cable Management Solutions
Discover a comprehensive

The coating of the cable tray is treated with spray, a zinc-coating, plating of zinc, and spray and zinc-plating, cold zinc

Hot Dip Galvanized Cable Tray Metal cable trunking or perforated cable tray is a more reliable, less

We have gained expertise in manufacturing and supplying a quality-assured range of Hot Dip Galvanized

Hot Dip Galvanized 70 Series channel covers and holders are specially designed for infrastructure projects that require high

Manufacturer of Cable Trays - Hot Dip GI Perforated Cable Trays, Pre Galvanized Perforated Cable Trays, Perforated Cable Trays

Russian cable tray hot-dip galvanizing manufacturer

Pre-Galvanised, Hot Dip Galvanised Cable Trays, H: 40, H50, H60, H80, H100 Cable Trays, Bendings, Accessories
