

Safety sign for construction site electrical distribution box

Preview

The Danger Distribution Board Sign provides a clear and highly visible warning of electrical hazards around distribution boards, switchboards, and fuse boxes. Designed for maximum visibility, compliance, and long-lasting performance, these signs clearly communicate the presence of high voltage, shock risks, and other electrical dangers. Given that these standards made the older OSHA sign formats obsolete in 2002. On this page you'll see safety signs and labels for construction areas, including underground wires, reminders for Personal Protective Equipment, electrical risks, demolition and more. Featuring the internationally recognised high voltage hazard symbol, this sign is fully compliant with ISO 7010 standards and helps to. Extend the life and performance of your safety or traffic & parking sign - stock or custom - and never pay to replace a sign again! Add UltraTuff(TM) overlamine for a minimal cost to your next order of signs, and stop spending money to replace your worn out sign every few years.
