It consists of a glass fibre reinforced polyester insulating enclosure, a grille for three-phase electrical distribution and a protective short-circuit set for size 22x58 and I_{max} 80A fuses. BlazingFast Photonics delivers high-speed optical transceivers, silicon photonics, co-packaged optics, OSFP 1.6T modules, laser drivers, TIAs, DFB lasers, VCSEL arrays, and LPO solutions for data cent. The panels are made in a sturdy and handy two-component technopolymer cabinet with a fire-resistant backrest, which allows them to be stored and reused in. The hub distributes electrical power from a single input source to various circuits throughout a building. Whether it's a home, office, or factory, the DB box makes sure power is used safely and efficiently.

There are many specifications and models of Distribution box. The following are some
