

Article Overview

Leading Spanish manufacturers of electrical distribution boxes include IDE Electric, Safybox Uriarte, and Pinazo, offering metal and fiberglass enclosures suitable for stairwell installations.

Key Manufacturers

IDE Electric specializes in high-quality metal electrical cabinets and combination units for industrial and residential applications. Their enclosures are made from cold-rolled steel, designed for versatility, easy access, and compliance with domestic and international standards. They offer a wide range of accessories, protection ratings from IP44 to IP67, and customization options for amperage and voltage requirements, making them suitable for stairwell electrical distribution . Safybox Uriarte manufactures fiberglass reinforced polyester (FRP) enclosures, providing durability, corrosion resistance, and long-term protection for electrical installations. Their products are widely used in electricity, telecommunications, water, gas, and photovoltaic sectors. Safybox offers tailored solutions, quick manufacturing, and compliance with industrial safety standards, making them ideal for stairwell and other indoor or outdoor installations . Pinazo produces reinforced polyester enclosures and cabinets for electricity measurement, protection, and distribution. They also manufacture command centers for street lighting and enclosures for water and gas applications. Pinazo emphasizes quality, ISO 9001 certification, and a broad range of boxes and cabinets suitable for stairwell electrical distribution .

Additional Resources

For a broader selection of suppliers, B2B directories such as Europages list multiple Spanish companies specializing in electrical distribution enclosures, including flush-mounted boxes, panels, and accessories for installation companies . Another resource, Ensun.io, provides a list of over 100 manufacturers and distributors in Spain, including Ormazabal, Grupo Electro Stocks, and Tradivel, which may offer additional options for stairwell electrical distribution systems .

Considerations

When selecting a manufacturer, consider:

- o Material: Metal (steel) vs. fiberglass (FRP) for durability and corrosion resistance.
- o Protection rating: IP44-IP67 for indoor/outdoor stairwell environments.
- o Customization: Amperage, voltage, and accessory options.
- o Certifications: Compliance with UNE-EN ISO 9001 and REBT standards.
- o Delivery and support: Lead times, installation guidance, and after-sales service. These manufacturers
