

# Spectrometer for Sale in Democratic Republic of Congo

## Article Overview

You can purchase a variety of spectrometers in the Democratic Republic of Congo from reputable suppliers such as Laboid International, Aditya Systems, and Global Bio Medicals.

## Local Suppliers and Manufacturers

Laboid International is a prominent supplier of spectrophotometers and related laboratory instruments in the Democratic Republic of Congo. They offer a wide range of spectrophotometers designed for research, clinical, and industrial applications, emphasizing precision, durability, and performance. Laboid maintains an extensive inventory to ensure prompt delivery and reliable service for local and international clients . Aditya Systems (LADA brand) provides spectrometers with various customizations to meet specific laboratory needs. Their products are manufactured using high-grade materials and advanced technology, ensuring reliability and ease of use. They are recognized for competitive pricing, on-time delivery, and customer support . Global Bio Medicals Inc offers digital spectrophotometers and other laboratory equipment suitable for clinical chemistry, immunoassays, and general laboratory use. They provide a diverse product range at competitive prices, making them a convenient option for laboratories in the region .

## Mass Spectrometers

For more advanced analytical needs, mass spectrometers are available through suppliers like Safe Training Systems Ltd, Focused Photonics Inc., Analytik Jena, and Shimadzu Scientific Instruments. These companies provide high-end instruments for applications ranging from environmental monitoring to industrial and research laboratories .

## Import and Trade Considerations

Spectrometers fall under HS Code 902750, which includes instruments for physical or chemical analysis using optical radiations (UV, visible, IR). In the Democratic Republic of Congo, the default duty for this category is 0%, facilitating importation of spectrometers and related laboratory equipment .

## Recommendations

- o Determine the type of spectrometer you need (UV-Vis, infrared, mass spectrometer, or digital spectrophotometer) based on your laboratory requirements.
- o Contact suppliers directly to inquire about product specifications, pricing, and delivery options.
- o Consider local distributors for faster shipping and support, or international suppliers if specialized instruments are required. By exploring these suppliers, you can access a wide range of spectrometers suitable
