

Sri Lanka Installs 4-Core Anti-Calibratory Optical Cable

Preview

The SEA-ME-WE 6 cable system, which will begin commercial operations by mid-2026, is a collaboration with Subcom LLC, USA, and a consortium of partners, with Sri Lanka Telecom PLC acting as the legal signatory. 1 cable in Sri Lanka since inception in 1962. During its 55 year operation the company has groomed to become a specialized manufacturer and supplier of an extensive range of cables and conductors with superior quality and standard unmatched by any other in the island. 4 core cables, also known as multicore wires, are used for more complex power systems requiring three-phase connections along with grounding. January 09, Colombo (LNU): SLT-Mobitel has made a significant advancement in Sri Lanka's telecommunications infrastructure with the successful landing of the SEA-ME-WE 6 (Southeast Asia-Middle East-Western Europe 6) submarine cable in Matara on December 29, 2024. This milestone positions Sri Lanka. With deep expertise in the cable industry, a keen market focus, and a track record of product innovation, the Company has the capability to deliver high-performing cables to customers around the globe.
