

Article Overview

Superfab Inc, LASNEK, and Thorne & Derrick UK are leading manufacturers and direct suppliers of stainless steel cable trays for industrial and commercial applications.

Key Manufacturers and Suppliers

Superfab Inc offers a wide range of stainless steel cable trays designed for durability, corrosion resistance, and heavy-duty applications. Their trays are suitable for indoor and outdoor environments, including coastal areas, chemical plants, and food processing industries. They provide modular components, pre-drilled holes, and compatibility with accessories like bends, tees, covers, and connectors, ensuring a complete cable management system with easy installation and minimal maintenance . LASNEK supplies high-quality stainless steel cable trays in the UK, focusing on efficient cable management solutions for various industries. Their products are designed to ensure safety, organization, and long-term reliability of wiring systems . Thorne & Derrick UK manufactures stainless steel cable trays in 304 and 316 grades, available in light, medium, and heavy-duty ranges. They offer ten standard widths from 50mm to 900mm and a full range of couplers, bends, tees, and risers to configure cable containment systems for oil, gas, petrochemical, rail, offshore, marine, nuclear, food processing, and heavy industry applications .

Product Features

- o Material Grades: Stainless steel 304, 316, and 316L for superior corrosion resistance .
- o Design Options: Ladder, perforated, and wire mesh trays with safety edges and modular components .
- o Durability: Resistant to moisture, chemicals, and mechanical stress, suitable for harsh environments .
- o Installation: Pre-drilled holes and modular design allow quick assembly and adjustment .
- o Accessories: Compatible with bends, tees, covers, risers, and couplers for complete cable routing solutions .

How to Source

You can directly contact these manufacturers through their websites or B2B marketplaces like DirectIndustry and ThomasNet, which provide access to global suppliers, product customization options, and bulk purchasing capabilities . These platforms also allow you to compare specifications, prices, and lead times to select the most suitable supplier for your project. By choosing a reputable direct supplier, you ensure high-quality stainless steel cable trays that meet industrial standards, provide long-term reliability, and simplify installation and maintenance.

Our stainless steel wire mesh cable trays are manufactured under a strict ISO 9001:2015 certified quality

Stainless Steel Cable Tray Direct Sales

JLH stainless steel wire basket cable tray is engineered with top-grade stainless steel 304 or 316, providing

The cable trays from SILTEC are made of first-class stainless steel that prevents corrosion and ensures a

Leading supplier of 316L and 304 stainless steel materials. We provide high-strength,

Husky Trough Tray is a cable tray consisting of ventilated or solid bottom contained within longitudinal side members. Our solid

Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable,

Superfab Inc uses premium-grade stainless steel and advanced manufacturing

Supplier of wire mesh cable trays and wire basket trays in stainless steel for production facilities and the

Carbon steel cable trays intended for installation in corrosive or highly corrosive environments with severe alkaline and acidic

We offer a wide range of cable tray systems to support tubing, electrical cables and instrumentation. Our

Cable Trunking Cable trunking is designed with square or rectangular shape to protect

Cable tray systems provide a safe, organised and efficient way to support electrical cables in commercial, industrial and infrastructure

We have a variety of cable trays available for purchase, these include perforated cable and wire mesh trays and cable ladders.

Our industry-leading interlocking frame, with its captive stainless steel gripping hardware, simultaneously encloses cables and their

Snake Tray manufactures cable trays, power distribution solutions and cost-effective cable management systems for data centers,

Cable trays are a type of cable management system used to support and organize electrical cables and wires in commercial,
