

Article Overview

Joud Cables is a leading Sudanese manufacturer of copper and aluminum cables, while Conductor specializes in fiber optic cable installation and maintenance, though local fiber optic manufacturing is limited.

Copper Cable Manufacturers

Joud Cables, established in 2006, is a prominent Sudanese company producing bare copper conductors and insulated cables, including PVC single-core cables and aluminum conductors. They manufacture control cables, domestic wires, and flexible cables to meet local market needs. The company operates in the industrial zone of Albaqir, Sudan, and is equipped with modern production machinery and quality systems, aiming for ISO certification. Joud Cables also provides after-sales support and professional guidance for cable usage across Sudan, with sales centers in Khartoum .

Fiber Optic Cable Services

While Sudan currently lacks local fiber optic cable manufacturers, Conductor offers comprehensive fiber optic services, including installation, testing, commissioning, splicing, termination, and corrective maintenance. They work with major telecom operators in Sudan such as Sudatel, Zain, and MTN, providing both overhead and underground fiber optic links. Conductor also supplies and installs solar systems and low-current infrastructure, supporting telecom and industrial projects .

Market Overview

Global directories, such as World of Manufacturers, do not list any Sudanese fiber optic cable manufacturers, suggesting that fiber optic cables are likely imported for local projects . Companies like Techline in the MENA region provide complete fiber optic solutions, including cables and distribution systems, which may serve Sudanese telecom networks through import and distribution .

Summary

- o Copper cables: Joud Cables is the primary local manufacturer.
- o Fiber optic cables: No local manufacturers; Conductor provides installation and maintenance services, while cables are typically imported.
- o Additional services: Companies like Mazar International offer civil and infrastructure support for cable deployment, including fiber optic networks . For procurement or partnership, contacting Joud Cables for copper products and Conductor for fiber optic services is recommended, while fiber optic cables themselves may need to be sourced from international suppliers.
