

Sultan Lighting Distribution Box Price Quote

Article Overview

Sultan Lighting Distribution Boxes typically range from USD 80 per unit for standard models, with prices varying based on specifications, customization, and order volume.

Price Overview

Sultan Lighting Distribution Boxes are available in various configurations, including modular designs with 4-24 positions, supporting 220V-380V AC, 50/60Hz, and up to 100A. Standard waterproof stainless steel or plastic enclosures start at approximately USD 80 per unit for basic models, such as a double-door 4x26 module box (600 x 800 x 200mm) for single or three-phase applications. Prices increase with additional features, such as higher amperage, more modules, IP-rated waterproofing, or OEM branding.

Factors Affecting Cost

- o **Material and Build:** Stainless steel (304/316) or cold-rolled steel enclosures are more durable and weather-resistant, commanding higher prices than standard plastic boxes.
- o **Capacity and Modules:** Boxes with more modules (e.g., 36-48 ways) or higher amperage ratings cost more due to increased complexity and material requirements.
- o **Customization:** OEM branding, custom busbar fitment, top cable entry modifications, and tailored layouts can significantly affect pricing.
- o **Order Volume:** Wholesale or bulk orders typically reduce per-unit costs, while single-unit purchases may be priced higher.
- o **Additional Features:** IP-rated enclosures, surge protection, and modular designs for stage or commercial lighting setups may increase the price.

How to Get a Quote

To obtain an accurate Sultan Lighting Distribution Box quote:

- o Contact Sultan or authorized distributors directly via their website or sales channels.
- o Provide specifications such as number of modules, amperage, material preference, and any customization requirements.
- o Request bulk pricing if ordering multiple units, as discounts are often available.
- o Confirm shipping and installation costs, which may vary depending on location and delivery method.

By considering these factors, you can secure a tailored price quote that reflects your specific requirements for Sultan Lighting Distribution Boxes.
