

Three-level distribution box with five-hole socket

Preview

Description: For circuit breakers, switches or sockets installed in racks. Opening for up to 22 modules (18 mm). The CHINT A30 Industrial Socket Modular and Digital Air-Opening Guide Rail Box Power Distribution AC30-10530 is designed for high-performance industrial power distribution. With a five-hole configuration and a 10A current rating, this socket is perfect for applications requiring reliable and secure. 1. Made of quality material for long lasting durability. ON push button is self-locking, OFF push button is automatic reset. Different color for two buttons, easy to recognize, good looking and convenient. Our company so boxes can be processed and assembled, what requirements you have, we can meet. With a waterproof design, it is perfect for use in various environments, including construction sites. welcome to taobao buy zhengtai five-hole digital-digital socket, taobao hundreds of millions of hot selling goods, official logistics can be sent to the world, support foreign currency payment and other payment methods, platform customer service 24hours online, by merchants offer return goods, let. Compliant with European/international standard EN/IEC 60309-2 The products have passed a variety of performance tests, whether in product temperature rise, mechanical life, material flame retardant, high pressure resistance, vibration, high temperature resistance, low temperature, or dust, pollution.

The principle of "one machine, one switch, one leakage, one box, one lock" strictly prohibits the same switchgear from directly controlling two or more electrical devices (including

Shop the CHINT A30 Industrial Socket Modular AC30-10530 with a five-hole design, 10A rating, and air-opening guide rail box for superior industrial power distribution. Perfect for automation, control
