The Rades-La Goulette bridge is an extradosed cable-stayed bridge spanning the lake of Tunis, more precisely the channel as well as the expressway and the Tunis-Goulette-Marsa line linking Tunis to La Goulette. It will link communities, end decades of congestion, and turn Bizerte into a long-awaited gateway for residents and tourists alike. The first and third phases, assigned to Tunisian companies, have reached 65% completion. However, the second phase--entrusted to the Chinese consortium. Chinese and Tunisian workers work on the Bizerte Bridge project in Bizerte, Tunisia on Sept. (Xinhua/Huang Ling). SRBG is building the 2. The project is for a 9km connection in total and is being built in three separate lots, with SRBG's package being the. The Rades-La Goulette Bridge extends 260 meters across Lake Tunis with two towers reaching 45 meters high and three spans measuring 70, 120, and 70 meters.
