

Article Overview

Yes, Tunisia has several companies specializing in fiber optic cables, including operators, integrators, and suppliers.

Tunisie Telecom is the national operator and a leading provider of fiber optic services in Tunisia. It has an extensive network covering approximately 50,000 km and continues to expand its fiber optic infrastructure across the country, including projects in regions like Tataouine. Tunisie Telecom also manages international connectivity through sub-sea fiber-optic cables and participates in the Medusa Submarine Cable System, enhancing both domestic and international bandwidth capacity . Specialized fiber optic companies include:

- o SNTT Company: Recognized as a leader in fiber optic cabling and IT solutions in Tunisia, SNTT provides professional project studies, integration, and maintenance services. It collaborates closely with Tunisie Telecom and offers support for both copper and fiber optic networks .
- o STS Group Int.: A pioneer in deploying turnkey telecommunications networks, STS Group specializes in fiber optic network installation, optimization, and maintenance. The company serves major operators, public administrations, and medium to large enterprises, offering tailored solutions for both new and existing networks .
- o i3t: A supplier of fiber optic cables and accessories, i3t provides a wide range of solutions for monomode and multimode fiber, outdoor and indoor installations, and certified ISO/CEI products. Their offerings cater to telecom installers, network integrators, and IT departments across Tunisia . These companies collectively cover the entire fiber optic ecosystem in Tunisia, from network deployment and integration to cable supply and technical support. Whether for residential, commercial, or industrial applications, businesses and individuals in Tunisia have access to a robust fiber optic infrastructure and professional services.
