Generally speaking, when using white cabinets, it is best to pair them with white trim. Colorful door or wall trims will break the monotony and contrast your white walls perfectly! But how do you know which trim color will work? Worry not! Today, I'll show you 16 trim colors to twist your white walls as you want! 1. However, depending on the overall design aesthetic of your space, lighter shades of gray may be a better choice. The trim should be chosen to tie the room together, but should also not stand out too prominently. The cabinets were plain white boxes -- no charm, no style. Instead of replacing them, I added simple wooden trim strips along the top and bottom edges. With just a weekend of DIY and some paint, the entire kitchen looked brand-new. That's when I realized how powerful small design changes can be. Crown molding and dentil molding are two of the most popular and can stand alone. To help connect your cabinets to the ceiling, you can also add rise molding beneath your crown. While selecting cabinet style, materials, and hardware are primary considerations, the finishing touches, particularly the trim used at the top of the cabinets, play a crucial role in achieving a cohesive and refined look.
