

Where are cable tray factories in the United States

Article Overview

Cable trays in the U.S. are manufactured by a variety of companies specializing in steel, aluminum, fiberglass, and PVC systems for industrial, commercial, and utility applications.

Major U.S. Manufacturers

Several leading companies produce cable trays domestically:

- o MP Husky: Offers UL, CSA, and NEMA-certified cable tray systems, including wire mesh and basket trays, emphasizing reliability and innovation .
- o Atkore (US Tray): Manufactures made-to-order steel, aluminum, and fiberglass cable trays per NEMA standards, with UL certification and Buy America compliance .
- o Snake Tray: Produces aluminum and steel cable trays for data centers, solar installations, and transit projects, focusing on cost-effective and efficient installation .
- o Eaton (Cooper Crouse-Hinds): Supplies industrial, commercial, and residential cable trays, including ladders and raceways .
- o Legrand: Offers a wide range of cable management solutions, including trays, raceways, and accessories for construction and telecommunications .
- o Southwire: Manufactures wire and cable products along with cable tray systems for construction, energy, and industrial sectors .
- o Chalfant Manufacturing: Specializes in high-quality cable tray systems with self-connecting options for efficient installation .

Materials and Types

U.S. manufacturers produce cable trays in various materials to meet different environmental and load requirements:

- o Steel: Galvanized, carbon, or stainless steel for heavy-duty and industrial applications .
- o Aluminum: Lightweight and corrosion-resistant, suitable for data centers and solar installations .
- o Fiberglass Reinforced Plastic (FRP): Resistant to chemicals and weather, ideal for outdoor or marine environments .
- o PVC and other plastics: Used for lightweight, non-conductive applications . Types of cable trays include ladder trays, channel trays, trough trays, wire mesh trays, solid-bottom trays, and single-rail trays, often with custom options for bends, reducers, and splice plates .

Industries Served

Where are cable tray factories in the United States

Cable trays manufactured in the U.S. are used across multiple sectors:

- o Construction and commercial buildings
- o Data centers and telecommunications
- o Industrial and manufacturing facilities
- o Utilities and energy infrastructure
- o Aerospace, military, and transportation projects

Certifications and Standards

U.S. cable tray manufacturers adhere to strict standards to ensure safety and durability:

- o UL Certification: Electrical safety and fire resistance
 - o NEMA Standards: Durability and weather resistance
 - o CSA Certification: Compliance for Canadian projects
 - o Buy America / Buy American: Ensures domestic production for government projects
- These manufacturers provide both standard and custom solutions, including engineering, design, and installation support, ensuring that cable tray systems meet specific project requirements while maintaining high quality and safety standards.
