

# Where can I find Indian standard cable trays

## Article Overview

You can find Indian standard cable trays from leading manufacturers and suppliers such as Ajay Industrial, KP Green Engineering, and various verified sellers on IndiaMART and ExportersIndia.

## Leading Manufacturers and Suppliers

o

Ajay Industrial Corporation Limited (AICL): Offers a wide range of cable trays including perforated types suitable for industrial, commercial, and infrastructure projects. They provide trays in various widths (25mm-1500mm), depths (25mm-150mm), and materials such as HR sheet, GP sheet, stainless steel, aluminium, and Galvalume. Surface finishes include hot-dip galvanized, painted, powder-coated, and self-finish options. Customization is available based on project requirements .

o

KP Green Engineering: Supplies perforated and ladder-type cable trays with high-load capacity and corrosion resistance. Materials include mild steel, pre-galvanized steel, and FRP. They offer customization in thickness (1.6mm-3mm), width (50mm-1200mm), length (2.5m, 3m, 6m), and side rail height (50mm-100mm). Accessories like bends, tees, elbows, reducers, and clamps are also available .

o

ELCON Group, Sunil Engineering Corporation, Sharda Cable Trays, Tress Electricals, Patny Systems: These companies provide ladder and perforated wire mesh cable trays, along with accessories and junction boxes. They emphasize high-quality fabrication, customization, and timely delivery .

## Online Marketplaces

o

IndiaMART: Features multiple suppliers such as Mahalaxmi Cables, R V Electricals, Neel Enterprise, Global Manufacturers and Traders, and Super Cable Tray Private Limited. Buyers can contact suppliers directly for pricing, bulk orders, and delivery details .

o

ExportersIndia: Lists verified suppliers offering ladder, perforated, plastic, and wire mesh cable trays. Users can compare prices and bulk deals for Indian standard cable trays .

## Tips for Selection

## Where can I find Indian standard cable trays

- o Material Choice: Select based on environment--stainless steel or FRP for corrosive areas, galvanized steel for general use.
- o Tray Type: Ladder trays for heavy-duty power cables, perforated trays for ventilation and drainage, wire mesh for flexible routing.
- o Customization: Ensure the supplier can provide trays in required dimensions and with necessary accessories for installation.
- o Compliance: Verify that the trays meet Indian standards for electrical safety and load capacity.

By contacting these manufacturers or suppliers, you can obtain Indian standard cable trays suitable for industrial, commercial, or infrastructure applications, with options for customization, material selection, and full accessory support.
