

Where can I find cable trays nationwide

Article Overview

High-quality cable trays can be sourced from specialized suppliers like CableOrganizer, Graybar, CableTiesAndMore, McMaster-Carr, Legrand, and Snake Tray, all offering nationwide shipping and a wide range of products.

Leading Online Suppliers

CableOrganizer offers a broad selection of cable tray systems including basket, ladder, solid, and snake trays, along with accessories for installation and customization. They provide solutions for both overhead and under-floor cable management, suitable for commercial and industrial applications. Graybar stocks thousands of cable trays and fittings from brands like B-Line (Eaton), Cablofil (Legrand), and nVent Hoffman. They offer solid-bottom, ventilated, ladder, and cable channel trays, with options for galvanized steel, aluminum, and stainless steel. CableTiesAndMore provides wire mesh, ladder, and specialty cable trays, including electro-zinc coated steel and fiber cable trays. Their products are designed for flexibility, durability, and easy installation in offices, data centers, and industrial facilities. McMaster-Carr carries over 850 cable tray products in various styles and sizes, with same-day or next-day delivery options, making it convenient for urgent projects. Legrand (Cablofil) specializes in wire mesh cable trays, ladder trays, and prefabricated assemblies for data centers and industrial installations. Their trays are engineered for strength, easy installation, and long-term reliability. Snake Tray focuses on innovative, hand-bendable cable trays that reduce installation time and freight costs. They offer solutions for data centers, solar installations, and transit systems, with nationwide stock and technical support.

Tips for Choosing a Supplier

- o Product Quality and Standards: Look for trays that meet NEMA or UL standards for safety and durability.
- o Material Selection: Choose galvanized steel for general use, stainless steel for wet or corrosive environments, aluminum for lightweight applications, and fiberglass for non-conductive or corrosive areas.
- o Customization: Some suppliers offer custom sizes, shapes, and pre-assembled solutions to fit unique project requirements.
- o Support and Service: Consider suppliers that provide CAD drawings, installation guidance, and post-sale support to ensure smooth project execution.
- o Nationwide Availability: Ensure the supplier can ship across the U.S. and has sufficient stock to meet project timelines.
